

**Greetings to the Cordillera Day 2011 from the Monday-Demonstration
Movement against the unsocial law of Hartz 4, Stuttgart, Germany
17th of April 2011**

James Balao is with us

If you can't speak to us anymore, we have to speak,
if you can't fight anymore for peace, justice
and ancestral rights of the people
in a liberated future,
we have do it, worldwide.
Be sure!

If you can't celebrate anymore your 50th birthday with us in two days,
we wish you a very „Happy birthday“.

If you can't accuse anymore Aquino III and GMA for
demolishing our human rights,
for the killings and disapperances,
we do it!
We remember all,
that in Argentina the murders and perpetrators of the
freedom fighters were accused nowadays
and jailed into prison.

If James won't be at the Cordis 2011,
friends, comrades, brothers and sisters,
look in the sky,
you see there
el Condor pasa
just like in the Cordilleras in America
or elsewhere in the world.

If they blame you as a so called „terrorist“,
we know, that this is a lie
made in USA!
You are a protector of the enviroment and of the nature
against the plundering by open pit mining
in Abra, Kalinga and as well in the South of the Phils.

Today, at the 944th day of your disapperance
we hear your cry for freedom
far away of here -
so near!
